2880 Bergey Road, Suite F • Hatfield, PA 19440

19 West Maiden Street • Washington, PA 15301

Ph: (877) 373-0118 • Fax: (888) 850-3787

PRINCIPAL MANUFACTURERS

APPALACHIAN ENERGY SOLUTIONS manufactures the Atlas pipe supports and clamps which provide a quick and reliable means to support and anchor piping systems. Both the Atlas supports and clamps offer easy height adjustment to level the piping and utilize fiberglass reinforced plastic pads to electrically isolate the pipe from the support. Available in sizes 1" to 48", Atlas products are typically specified on skid mounted stations, compressor facility piping, and a variety of above grade, piping applications.

A.Y. MCDONALD MFG. COMPANY is the leading manufacturer of Plug and Ball style Gas Meter Shutoff Valves utilized in both residential and commercial applications up to 175 PSIG. A.Y. McDonald offers a variety of Integral Valve and Standard Configuration Meter Bars including single and multiple residential By-Pass Meter Bars and the newly developed Industrial By-Pass Bar. A full line of straight and off-set Meter Swivels, Meter Nuts, Meter Plugs and 3 Part Unions are also available. A.Y. McDonald recently expanded their natural gas suite of products with Risers, Service Head Adapters and Couplings via their purchase of Chicago Fittings.

BÖHMER is a worldwide leader in the manufacturing of forged, fully welded, trunnion mounted style ball valves for a variety of high pressure field applications. Nearly 60 years of German engineering and design have resulted in a state of the art production facility and one of the highest quality, flange/welded end valves available on the market. Böhmer Ball Valves are available in diameter sizes ranging from 2" thru 56" with ANSI Class 150 to 1500 nominal pressure ratings, and made in accordance with API 6D standards.

CANUSA-CPS is a global leader in field applied corrosion protection systems. CANUSA Heat-Shrinkable Products include Wraparound and Tubular Sleeve Systems and Tapes. CANUSA also offers a suite of HBE-95 Liquid Epoxy Coatings for year-round applications and recently developed a successful strategic global partnership with NRI relating to Scar-Guard®, a Fiber Reinforced Composite Mechanical Protection System for superior abrasion resistance during HDD applications. CANUSA owns Dhatec, a company that specializes in reusable systems that provide safe and efficient transit and storage of bare and coated pipe under any circumstance or climate.

CCI PIPELINE SYSTEMS specializes in providing a complete line of Casing related products for the Gas, Oil, Water and Wastewater Industries. CCI's suite of high quality products include Wrap-It Link Seals, High-Density Polyethylene, Carbon or Stainless Steel Casing Spacers, and Neoprene Rubber End Seals for Casing Pipe and Wall Penetration applications. CCI also offers ArmorCote U-Bolts possessing compressive strength and abrasion resistance along with excellent UV resistance for long term use in exposed installations.

CHASE CORPORATION is a leading manufacturer of field applied Coatings and Tapes for the Natural Gas, Oil, Water and Wastewater industries. Chase's Pipeline Coatings division is comprised of the highest quality and well respected brand names including **Tapecoat®** and **Royston®**. Chase's extensive product line includes a variety of Cold and Hot Applied Tapes, Sealants, Protective Outerwraps, Liquid Epoxies, Mastics, Petrolatum Wax Tapes as well as Casing Fill products and services.

CLOCK SPRING/NRI is the world's leading manufacturer of permanent and temporary Composite Pipeline Repair solutions. The recent ClockSpring/NRI merger provides Liberty Sales access to the full suite of highly engineered repair, rehabilitation and construction solutions for critical infrastructure. ClockSpring/NRI's products are designed to provide structural reinforcement, leak repair, and corrosion prevention for pipeline and industrial piping applications. ClockSpring/NRI's proven solutions are easy to install, cost effective, and can be installed without service interruption.

PRINCIPAL MANUFACTURERS

LIBERTY SALES & DISTRIBUTION

Directional Drilling Coatings

LIBERTY SALES & DISTRIBUTION, LLC offers a variety of coatings from the pipeline industry's leading manufacturers for Horizontal Directional Drilling systems. These HDD products include liquid epoxy coatings such as Powercrete J, Powercrete R-95, and the Denso ARO, as well as the Scar-Guard® system. Scar-Guard® is a Composite Mechanical Protection System designed for superior abrasion resistance and can be applied over a variety of corrosion coatings. Products are stocked locally in our PA locations.

LIBERTY SALES & DISTRIBUTION

Fabrication and Metal Products

LIBERTY SALES & DISTRIBUTION, LLC serves the pipeline industry by distributing a wide selection of fabricated pipeline and metal products. Custom products available include M & R Station Prefabs, Fabricated Meter Sets, Pipe Supports, Meter Brackets, and a variety of Flanged Fittings built to your company specifications.

LIBERTY SALES & DISTRIBUTION

Liberty HD Rockshield®

LIBERTY HD ROCKSHIELD® provides high impact and abrasion resistance to protect all of your underground pipeline infrastructure needs. Made from a random looped, lead free, PVC material, this high-density Rockshield will save you money by eliminating the need for select back fill, and provide long term abrasion resistance for the life of the pipeline. We can custom cut large orders to help reduce waste on your project and we readily stock standard sizes for same day delivery. Liberty Sales and Distribution also provides a variety of lighter weight Rockshields to meet all your underground pipeline protection needs.

LIBERTY SALES & DISTRIBUTION

Pipeline Markers

LIBERTY SALES & DISTRIBUTION, LLC can provide you with all your marking needs for both underground and above ground infrastructure. The Liberty Dome Post, Test Station, Vent Casing Post, and Flexible Marker Post are all made from impact resistant, UV stable plastics and resins that will provide long term marking protection. Our suite of marking products are available in standard lengths and colors as needed, and we can also accommodate special orders upon request. Please contact our office for additional information.

LIBERTY SALES & DISTRIBUTION

Pipeline Pigging Products

LIBERTY SALES & DISTRIBUTION, LLC serves the pipeline industry by distributing a wide selection of pipeline pigging products and accessories. Our pipeline pigging products are available in most sizes for cleaning, scraping, swabbing and batching solutions for your pipeline. Whatever the job requires, Liberty Sales can provide you the proper Pig, Pig Launcher or Pig Tracker, each customized to your specifications.

LOCUS VIEW SOLUTIONS, a Chicago-based subsidiary of the Gas Technology Institute (GTI), provides mobile and GIS solutions to the natural gas industry. Our technology is the result of industry-funded programs to develop next generation tools to ensure regulatory compliance, improve integrity and public safety, and reduce O&M costs. We partner with best-in-class technology providers to create and deliver innovative solutions customized for the unique requirements of the natural gas industry. Locus View offers LocusMap for Tracking & Traceability, LocusSurvey for Leak Survey and LocusIQ for Intelligent Inspections.

PRINCIPAL MANUFACTURERS

OVERPIPE

OVERPIPE manufactures rugged HDPE Protection Plates that are specifically designed to protect buried pipelines against third-party damages and offer a reliable, economic, and environmentally friendly alternative to concrete slabs. The OVERPIPE Plate acts as a warning device and can resist the assault of a 32-ton shovel to help prevent encroachment and pipeline damage. OVERPIPE Protection Plates are lightweight (68-86 lbs depending on the model), simple to install and can be easily removed to allow inspection or repair of the pipeline.

TECO AMERICAS

TECO AMERICAS - The FireBag® is a Thermal-activated Gas Shut-off Device that automatically stops the flow of gas in a fire. When activated, the FireBag® stops feeding gas to the flames and helps prevent the spread of fire. The FireBag® is activated when the external temperature of the Firebag® reaches 203-212°F (95-100°C). Internally, the metal alloy that keeps the plug and cartridge together melts, allowing spring pressure to plug and completely close the device. No instrumentation or detectors are required to automatically stop the flow of gas. Meets or exceeds DIN 3586 thermo activated safety device and UNI EN 1775 standards for indoor gas installations.

TELLUS

Tellus Underground Technology, Inc. is the premier manufacturer of technologically advanced Vacuum Excavation Systems and Keyhole Tooling engineered and designed to help our customers perform their jobs more safely and efficiently. The patented Tellus Filtration System is revolutionary and self-cleaning. The filters NEVER need to be removed and cleaned like conventional filters and continually operate at peak performance throughout the day, increasing productivity by eliminating downtime for regular filtration maintenance. The zero maintenance filtration system can also be used in either dry or wet soil conditions at a fraction of the cost compared to conventional systems.

WESTERN TECHNOLOGY, INC. is the premier manufacturer and supplier of Explosion Proof and Low Voltage Lighting products, serving a variety of industries. The UL Approved, CLASS I DIV I BRICK® Light offers brilliant white LED lighting with safety and “kick it tough” durability. The BRICK® Light provides superior lighting with minimal heat generation even after hours of operation. Western Technology also recently introduced the smaller, more portable BRICKette™ and the rechargeable battery powered BodyLight™, providing a complete line of Explosion Proof Products for a variety of applications in hazardous locations.
